

SEE THE LIGHT

WE LIGHT THE WAY

WE LIGHT THE WAY

**With technical brilliance and a fired-up service, we shine a light on what works and what's right for your business, your residence, and your budget.**

There's no mystery, no shadow play.  
No leaving you in the dark.

From plan to product, to price  
- our lighting team brings total  
clarity.

We can design your lighting plan, create bespoke fittings, source the world's most contemporary designs, the environmental answers and the sustainable solutions.

# Brill by des

# ance

**Brilliant lighting  
doesn't just happen.**

It takes complete understanding of interior design, spatial design, electrical engineering and ergonomics.

Our specialist design team works with your architect and interior designer to create a lighting plan that enhances the project - taking it to another level of amazing.

Whether commercial or residential, our design team engages the same set of skills - from initial consultation, to computer detailed lighting plans and fixture specifications. Like any creative design process, there's an element of flexibility and discovery, the ingredients necessary to produce the wow factor.

# gn.

**“This project emerged through the need to co-locate and integrate Caltex and Z under the same roof when the two companies merged.**

The project was aptly named ‘kotahitanga’ which means: unity, togetherness, solidarity, collective action.

The space performs as one entity reflecting this oneness, functioning as a whole. Sightlines run from one side of the building to the other.

Spaces flow as energy does, with a liquid-like fluidity.

Having lighting consultants involved early on in the design process is incredibly beneficial as lighting (often an area to cop the budget cuts) is actually one of the elements in a fit-out that carries the biggest impact experientially.

Lighting is a key ingredient not only on a comfort level, but on an aesthetic level. Lightplan really understood the brief and was able to source great options which we refined into a unique solution.

**What I loved about Lightplan was their ability to engage with the concept and design and work collaboratively to create a unique spatial experience”.**

**Spark have been working with Lightplan for over 3 years and have a lot of confidence in their ability to provide a great solution.**

“They are our trusted partner and always come back with different options and that’s something we really appreciate.

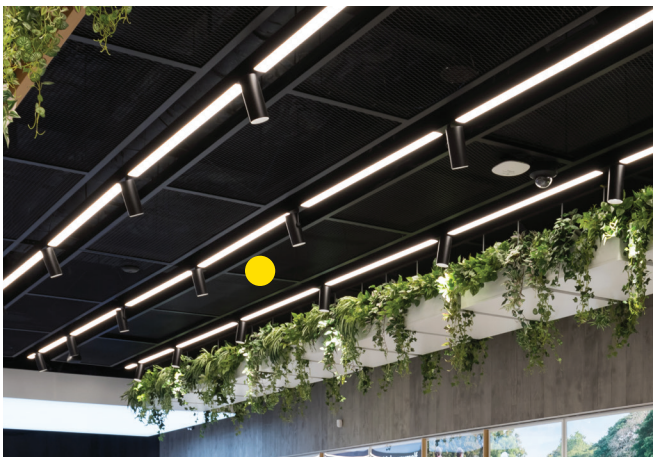

With the recent Chartwell Spark store, we had this idea to have portable UE Boom speakers hanging from a central feature. Lightplan customised it and made it all work perfectly. It’s unique and gives the store a real wow factor.

They are currently working on our first Halo store at Commercial Bay in Auckland. This will be our flagship store, a multi-level site in a 790m<sup>2</sup> space.

**Lightplan work closely with our architects and shopfitters. They are one of our trusted partners and we’ve never looked back.”**

## TRA AUCKLAND

**Jose Gutierrez was behind the design of the TRA office and describes the thinking behind the project.**

"We are always wanting produce interesting work...work that questions the norm, rather than sticking to grids and producing cookie cutter design. We like to be bold without screaming.

We know the project, we have an idea of how the lighting should be and the sort of look it should create.

Lightplan bring flexibility. They can modify a light to make it work the way we want it to...it's those little things that make it interesting.

They are open to change rather than just selling lights and they are able to work closely with the project contractors.

**For us, a successful result from Lightplan is understanding the brief and working closely with us to achieve the look we want.**

JOSE GUTIERREZ  
Director  
JOSE GUTIERREZ LTD

**The DGSE team have designed a workplace that fosters their culture with a variety of spatial experiences from focused taskwork to informal collaboration.**

“We focused on who we are, how we work and how we wanted the space to influence the way we work as a team and with our clients.

We wanted to achieve a studio space that was open, functionally efficient with opportunities for collaboration, casual meeting and relaxing” explains Chris Gilby.

“The Lightplan team worked with us to realise our vision of the space, bringing ideas to the table which further enhanced the space.

**Most important to us throughout the process was communication, from the design phase, bringing ideas together to realising our vision on site.”**

**The latest in Linear Profiles**

From slimline to recessed, low glare to LED rings, we have the latest in linear profiles to shine light where it's needed. Our bespoke service can also create tailored profiles for your unique project.

ne.

All light sources are LED 20w/m, 2000 lm/m, CRI82, 4000K / 3000K, 5 year warranty.

Moxie

*Moxie* is a compact, direct, streamlined design complete with sliding suspensions. At 55mm wide this profile is suited to most applications. This is our most cost effective profile.

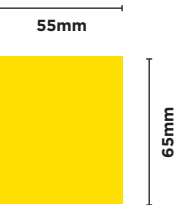

**DRIVER** Osram integrated, non-dimmable

**FINISHES** BLK / SLV / WHT / CUST

**DIMMING** On request  
DALI or SwitchDIM (5 cable requirement)

**LENGTHS STOCKED** (Custom on request)

1130mm	████████
1410mm	██████████
1970mm	██████████████
2250mm	████████████████
3090mm	██████████████████
3950mm	██████████████████████

Dynamo

*Dynamo* is a compact, streamlined design. This is a cost effective, versatile, direct/indirect profile capable of being suspended as well as ceiling and wall mounted.

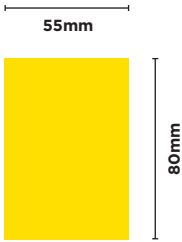

**DRIVER** Osram integrated, non-dimmable

**FINISHES** BLK / SLV / WHT / CUST

**DIMMING** On request  
DALI or SwitchDIM (5 cable requirement)

**LENGTHS STOCKED** (Custom on request)

1500mm	██████████
2000mm	██████████████
2400mm	████████████████
3000mm	██████████████████

All light sources are LED 20w/m, 2000 lm/m, CRI82, 4000K / 3000K, 5 year warranty.

## Grazer

*Grazer's* slim designed profile allows for discrete powerful direct & indirect wall washing.

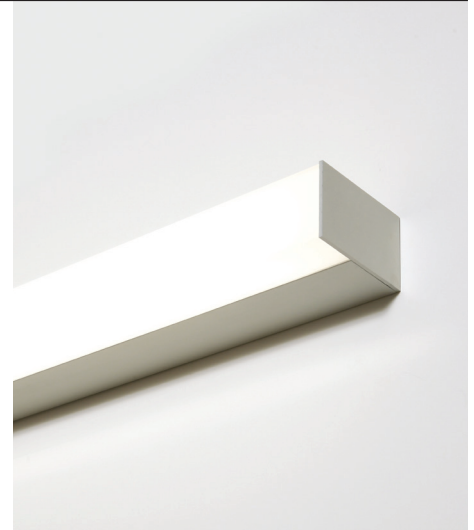

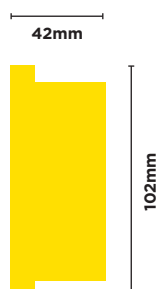

**DRIVER** Osram integrated, non-dimmable

**FINISHES** BLK / SLV / WHT / CUST

**DIMMING** On request  
DALI or SwitchDIM (5 cable requirement)

**LENGTHS STOCKED** (Custom on request)

400mm	■
600mm	■
900mm	■
1200mm	■

## Falcon

*Falcon* is a suspended or surface mounted luminaire, with a cross section dimension of just 44mm, *Falcon's* body houses a standard LED driver integral to the channel, creating a remarkably low-profile luminaire. Dropped or flush diffuser options available.

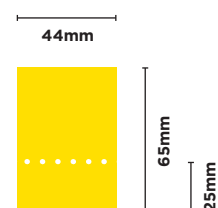

**DRIVER** Osram integrated, non-dimmable

**FINISHES** BLK / SLV / WHT / CUST

**DIMMING** On request  
DALI or SwitchDIM (5 cable requirement)

**LENGTHS STOCKED** (Custom on request)

600mm	■	surface
900mm	■	surface
1200mm	■	surface
1500mm	■	surface

All light sources are LED 20w/m, 2000 lm/m, CRI82, 4000K / 3000K, 5 year warranty.

Pocket

*Pocket* is a small LED channel which allows for minimal linear lighting in recessed applications for ceiling and walls.

- DRIVER** Osram remote, non-dimmable
- FINISHES** BLK / SLV / WHT / CUST
- DIMMING** On request  
DALI or SwitchDIM (5 cable requirement)
- LENGTHS STOCKED** (Custom on request)
- |        |                  |

| 1000mm | ████████         |
| 1500mm | ██████████       |
| 2000mm | ████████████     |
| 2500mm | ██████████████   |
| 3000mm | ████████████████ |

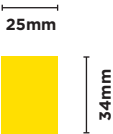

Moonring

*Moonring* offers limitless design options. Any curve or shape can be manufactured in straights, arcs and rings joining together to form your concept. Also available with direct/indirect light.

- DRIVER** Osram remote, non-dimmable
- FINISHES** BLK / WHT / CUST
- DIMMING** On request  
DALI or SwitchDIM (5 cable requirement)
- LENGTHS STOCKED** (Custom on request)

1200mm  
1800mm

All light sources are LED 20w/m, 2000 lm/m, CRI82, 4000K / 3000K, 5 year warranty.

## Wonder

*Wonder* is a sleek integrated design capable of providing a multitude of lighting options. Direct/indirect linear light, or you have the option to use low glare controlled beam angle downlights.

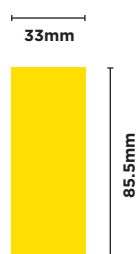

**DRIVER** Osram integrated, non-dimmable

**FINISHES** BLK / SLV / WHT / CUST

**DIMMING** On request  
DALI or SwitchDIM (5 cable requirement)

**LENGTHS STOCKED** (Custom on request)

1500mm	
2000mm	
3000mm	

## Mr Slim

*Mr Slim* is a super sleek design capable of providing direct/indirect linear light. You also have the option to use low glare controlled beam angle downlights.

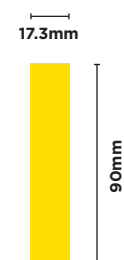

**DRIVER** Osram remote, non-dimmable

**FINISHES** BLK / SLV / WHT / CUST

**DIMMING** On request  
DALI or SwitchDIM (5 cable requirement)

**LENGTHS STOCKED** (Custom on request)

2000mm	
2400mm	
3000mm	

All light sources are LED 20w/m, 2000 lm/m, CRI82, 4000K / 3000K, 5 year warranty.

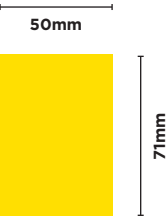

Cove

Cove is a slimline linear direct LED profile, with a recessed frosted acrylic diffuser to reduce glare.

- DRIVER** Osram integrated, non-dimmable
- FINISHES** BLK / SLV / WHT / CUST
- DIMMING** On request  
DALI or SwitchDIM (5 cable requirement)
- NOT STOCKED** (Custom on request)

Archie

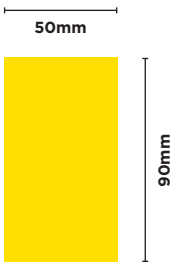

Archie is a slimline linear direct/indirect LED profile, with a recessed frosted acrylic diffuser to reduce glare.

- DRIVER** Osram integrated, non-dimmable
- FINISHES** BLK / SLV / WHT / CUST
- DIMMING** On request  
DALI or SwitchDIM (5 cable requirement)
- LENGTHS STOCKED** (Custom on request)

1500mm

2000mm

All light sources are LED 20w/m, 2000 lm/m, CRI82, 4000K / 3000K, 5 year warranty.

## Rodney

*Rodney* is a cylindrical satin acrylic tube providing 360 degrees of illumination, available in suspended (vertical or horizontal) and wall-mount.

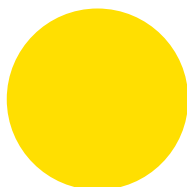

**DRIVER** Osram remote, non-dimmable

**FINISHES** BLK / SLV / WHT / CUST

**DIMMING** On request  
DALI or SwitchDIM (5 cable requirement)

**NOT STOCKED** (Custom on request)

80mm Ø

## Spy

*Spy* is an ultra small linear direct/LED profile, with either dropped or flush frosted acrylic diffuser options.

**DRIVER** Osram remote, non-dimmable

**FINISHES** BLK / SLV / WHT / CUST

**DIMMING** On request  
DALI or SwitchDIM (5 cable requirement)

**NOT STOCKED** (Custom on request)

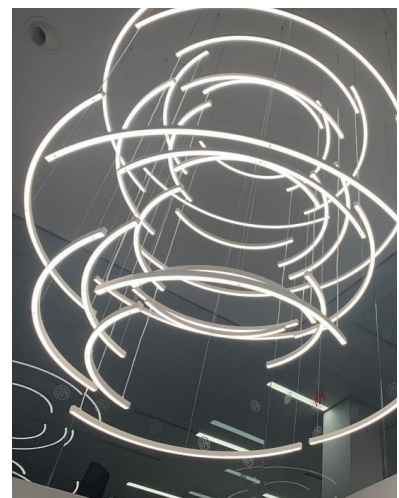

25mm

# Your brilliant shining through

We've been brightening up workplaces and living spaces since 2004 with our unique combination of imagination and technical know-how.

No matter whether you are an architect, an interior designer, landscape designer or building owner, Lightplan will always put you in a good light.

Call the team today.
